

AH-64 MAIN ROTOR STRAP PACK

PART NO: AH64-MRSP

FEATURES

- Installs in seconds and is locked in place with two quick release pins through the Main Rotor Hub upper webbing lifting bushings
- Once Strap Pack Support is pinned in the Strap Pack rests completely supported and stabilized on top of the support.
- The Support has a cutout on the inboard side allowing complete access to the Feather Bearing
- The Strap Pack Support keeps the Strap Pack immobilized
- With the Strap Pack Support installed the Strap outboard "Mega-Nut" is in the open allowing a 100% circumferential inspection of the Outside Diameter (O.D.) and a complete Non-Destructive Inspection (NDI) of the Inside Diameter (I.D.)
