

# AH-64 TAIL BOOM CLEANING SYSTEM

PART NO: AH64-TBCS

## DESCRIPTION

The AH-64 Tail Boom Cleaning System attaches to all Armick soap foamer units and is used to foam the interior of the tail boom. The same boom connects to a water source to rinse. This two-step cleaning process eliminates 80-90% of mold and mildew without having to physically enter the hard to reach areas.

## FEATURES

- Foam provides maximum contact time for chemical effectiveness
- Foam reduces the amount of labor needed to clean the aircraft
- Foam offers savings in chemical and water usage
