

AH-64E MAIN ROTOR BLADE TIE DOWN SYSTEM

PART NO: AAH64-CMRBTD

DESCRIPTION

Utilizing a fast-slip prusik hitch and integrated rope channels, you can now deploy and stow your tie downs in less time than ever before. Nothing will secure your main rotor blades better, or is tougher in the field.

FEATURES

- Designed for the AH-64E airframe
- Secures main rotor blades without scratching the composite
- UV-resistant, reinforced nylon allows for years of service in the field
- Fast-slip prusik hitch and carabiner
- Secured webbing for fast and firm deployment
- Remove before flight ribbon included
