

DIESEL POWERED FOAMER

PART NO: M1D-TP

DESCRIPTION

The M1D-TP Foamer builds on the success of the M1D by increasing the tank size to 100 gallons of pre-mixed solution allowing for double the foam time in between fill ups. The 7HP diesel air sled powers the foam unit and allows the operator to quickly foam down any size aircraft. This unit is ideally suited for deployments where compressed air is not available. The new frame and steering system allow for easy towing.

FEATURES

- 100 gallon tank for extended foaming
- 7HP diesel engine with electric start package
- 4 wheel steering with tow bar
- 15 inch foam filled tires
- Secondary air connection to power air tools
